

Since 2021, Webb has been engaging in diverse projects throughout the Dallas-Fort Worth area and across the Southern region.

Our Texas Story

Since starting in Dallas, Webb has reshaped dining in Dallas-Fort Worth and beyond, with key projects like KDC Cityline - State Farm in Richardson, TIAA in Frisco, and a leading financial institution in Dallas. We've also upgraded dining at TCU, showcasing our drive for innovation within campus environments.

Our purpose is to be the most collaborative, responsive, and flexible trusted advisor in the industry

As a trusted advisor, we prioritize building strong relationships. Our operational expertise has earned us a reputation as the go-to firm for comprehensive foodservice planning and design.

Our team of experts, with deep industry knowledge and specialized skills, works on national projects of all sizes. Our holistic approach goes beyond kitchen equipment specification and encompasses operational models, market research, design, construction administration and profitability.

Your advisor and advocate

We listen to your needs and aspirations and work seamlessly with all stakeholders to ensure projects are successful. Our projects are designed to be relevant for years to come, combining functionality, sustainability, and exceptional design to create remarkable experiences.

Promoting gathering and assembly on campus

Every college dining facility is a community builder and the social hub on campus. So we design spaces that stimulate, excite, and facilitate bonds of community while expressing the cultural DNA of diners and ultimately delivering a compelling culinary and social experience.

We apply the key principles of placemaking to guide us in the design process. Accessibility, sustainability, and wellness are important anchors to enhancing the student experience.

Experience

Transforming TCU's Campus Dining: A Partnership with Webb Foodservice Design

Trusted advisors for every step of the project

In 2021, Texas Christian University (TCU) and Sodexo partnered with Webb Foodservice Design to kick-start the East Campus Dining Hall project, marking the beginning of a significant collaboration. Webb's planning and design expertise supported TCU's expanding campus, leading to the development of dining projects totaling 199,000 square feet and a combined budget of over \$120 million. This partnership has delivered innovative dining spaces that meet the growing needs of the TCU community, enhancing the campus dining experience.
